THE J. T. HOUCK

SHOE STORE

SPRING AND SUMMER
1912

Shoe fashions are most important, and a disregard of their selections may mar the most effective costume.

IN our stock you always find the mode of the moment. This season there should be related touches between the various details of your costume. This gives full sway to the tendency towards the novel effects in colors and materials that characterize the new models. We select such lines as are alive to all these conditions, and we are always in the vanguard on style matters. This, coupled with their reputation for comfort and fine fitting qualities, insures to the wearer not only elegance in appearance but ease from the first moment worn.

If you wish to see styles that are different from those shown elsewhere, shoes that represent your own idea of what fashionable footwear should be, you should see our showing before you make your purchase.
