Dr. Burgess
Harrisonburg, Va.

Dear Dr. Burgess:- This morning News-Record (page 5) contains an announcement of a very important Institute to be held in Harrisonburg May 9 and 10. I am hoping you will be able to give us the benefit of your presence and help in the Institute. As an educator of the State you are very vitally interested in some of the matters which will receive attention, and we will need your help in discussing them.

While at Lynchburg, at the State Institute, I had the pleasure of meeting Dr. M. Connelley of the East Radford Normal. His interest in the work of the Institute was evidenced by his spending of the entire week at Lynchburg. The District Institutes will be two-day affairs but it is hoped that in those two days something of the vision and purpose of the program may be brought to the home communities.

May we not see you there.

Yours very truly
A. M. Dupler.
