

HARRISONBURG.

At Harrisonburg I checked the vouchers for January, and found that the Treasurer's statement agreed with the amounts of the receipts and disbursements, as shown on the ledgers of the school. The cash was \$1.00 under the amount shown on the cash book on Feb. 24th, but the Treasurer reported that she found this with her post-office receipts when she checked up for the evening.

The housekeeper had not been taking receipts for the small amounts expended by her for produce brought to the school, and so her receipt is the only voucher for a number of small payments aggregating less than \$15.00 a month. I have requested her to take a receipt for all money so expended so that the school will have proper vouchers in the future.
