

HARRISONBURG.

On May 6th I was in Harrisonburg with the building committee for that school, but did not have an opportunity to check the Treasurer's statement for the month. It will be necessary for me to make another trip to Harrisonburg in order to do this.

The action of the building committee is set out in the minutes of that committee meeting, a copy of which has been mailed to each member of the board at the suggestion of the committee's chairman.
