

My dear Mr Burruss.

I appreciate your note more than I can tell and I want to thank you and the Board for the action taken.

I have always felt the greatest pleasure in my work here, due largely to the fact that I knew you stood behind me. From my standpoint one of the big things for which our school stands is harmony or lack of friction, and that has been shown me every day for nearly six

years, and if I have taken
my tasks cheerfully it has been
because you have given the
hearty co-operation which was
needed.

Very sincerely
Mary Louise Deeger
